On April 4, 2016, the United States District Court for the Eastern District of Louisiana entered a Consent Decree resolving civil claims by the Trustees against BP arising from the DWH oil spill: *United States v. BPXP et al.*, Civ. No. 10–4536, centralized in MDL 2179, In re: Oil Spill by the Oil Rig “Deepwater Horizon” in the Gulf of Mexico, on April 20, 2010 (E.D. La.) (<http://www.justice.gov/enrd/deepwater-horizon>). Pursuant to the Consent Decree, restoration projects in the Mississippi Restoration Area are chosen and managed by the MS TIG. The MS TIG is composed of the following Trustees: State of Mississippi Department of Environmental Quality, DOI, NOAA, EPA, and USDA.

Background

On October 30, 2020, the MS TIG posted a public notice at <http://www.gulfspillrestoration.noaa.gov> requesting new or revised natural resource restoration project ideas by November 30, 2020, for the Mississippi Restoration Area. The notice stated that the MS TIG was seeking project ideas for the following restoration types: (1) Habitat Projects on Federally Managed Lands; (2) Sea Turtles; (3) Marine Mammals; (4) Birds; and (5) Provide and Enhance Recreational Opportunities. On June 11, 2021, the MS TIG announced that it had initiated drafting of the RP3/EA and that it would include a reasonable range of restoration alternatives (projects) for the five restoration types.

The MS TIG released the Draft RP3/EA on December 7, 2021, and its notice of availability was published in the **Federal Register** on December 7, 2021 (86 FR 69287). In accordance with the National Environmental Policy Act (NEPA) and the OPA NRDA regulations, the MS TIG analyzed a reasonable range of alternatives that would meet the Trustees' goals to restore and conserve habitat, replenish and protect living

coastal and marine resources, and provide and enhance recreational opportunities, and identified the alternatives that the MS TIG preferred for implementation. The public review and comment period ran from the date of notice of publication in the **Federal Register** through January 26, 2022. To facilitate public review and comment, the MS TIG held a public webinar on January 11, 2022. Before finalizing the document, the MS TIG considered all public comments received during the webinar, through direct submittals to its online public comment portal, and by USPS. A summary of comments and the MS TIG's responses to those comments are provided in Chapter 6 of the Final RP3/EA.

Overview of the MS TIG Final RP3/EA

The Final RP3/EA provides the MS TIG's analysis of a reasonable range of alternatives, consisting of twelve alternatives, and a no action alternative for each restoration type in the plan. The MS TIG's seven preferred alternatives were ultimately selected for implementation and are presented in the following table under the restoration type from which funds would be allocated in accordance with the DWH Consent Decree. The approximate cost for the seven selected projects is \$19,000,000.

Restoration Type: Habitat Projects on Federally Managed Lands
Improve Native Habitats by Removing Marine Debris from Mississippi Barrier Islands

Restoration Type: Sea Turtles
Maintaining Enhanced Sea Turtle Stranding Network Capacity and Diagnostic Capabilities (3 Years)

Restoration Type: Marine Mammals
Maintaining Enhanced Marine Mammal Stranding Network Capacity and Diagnostic Capabilities
Reduction of Marine Mammal Fishery Interactions through Trawl Technique and Component Material Improvements

Restoration Type: Birds

Restoration Type: Provide and Enhance Recreational Opportunities
Clower Thornton Nature Park Trail Improvement
Environmental Education and Stewardship at Walter Anderson Museum of Art

SUPPLEMENTARY INFORMATION:

Background

On July 7, 2021, Secretary Deb Haaland announced the establishment of a new departmental law enforcement task force to implement the highest standards for protecting the public and provide necessary policy guidance, resources, and training to agency

personnel within the DOI. Led by Deputy Secretary of the Interior Tommy Beaudreau, the Task Force is responsible for implementing the Secretary’s vision of utilizing an equity lens and evidence-based decision making to review and identify opportunities for improvement in law enforcement programs of the National Park Service, U.S. Fish and Wildlife Service, Bureau of Land Management, Bureau of Indian Affairs, and Bureau of Reclamation. The Task Force will focus on ways to (1) strengthen trust in our law enforcement programs; (2) ensure appropriate policy and oversight is implemented; and (3) ensure supportive resources are available for officer mental health, wellness, and safety.

A working group of subject matter experts, representatives of Bureaus with law enforcement programs, Bureau of Reclamation, and the DOI’s Office of Law Enforcement and Security identified both internal and external key stakeholders that will inform this process. External stakeholders will include members of the public, visitors, advocacy groups, cooperating state and local organizations, neighbors and community members, and members of Tribes. With the goal of providing recommendations to improve the law enforcement programs within the DOI, the working group seeks input from these key stakeholders on DOI law enforcement services and areas for possible improvement.

DOI is conducting twelve (12) virtual listening sessions and inviting public comments to obtain stakeholder input on public perception of DOI law enforcement and understand how the DOI can best develop and maintain public trust, transparency, and legitimacy with its stakeholders.
